Bahrain: Potential Areas of Assistance for G*f*D Phase II

Based on the activities completed, the outputs produced and the discussions held in national and regional meetings, the priority areas that may call for assistance from the partners are synthesized for Themes IV, V and VI below. These areas are based on the analysis of the policies and priorities of the participating Arab countries and their needs for financial and technical assistance. The core of that assistance will be to a) further detail the action plans for which there are now simple "outlines", b) prepare feasible projects for each area and c) intensively engage in a capacity building process for institutions involved in the reform process and its' human resources. Capacity building includes institutional reviews leading to reorganization with a view to increasing efficiency; analysis of rules and procedures with a view to eliminating outdated and unnecessary regulations and formulating new ones; strengthening institutional interdependence and coordination; providing proper tools and instruments for task performance; enhancing the use of modern information systems and increasing the motivation, knowledge and skills of staff.

1. Potential Areas of Assistance under Theme V: Under Theme V, and based on the continuous dialogue held among the different actors, three reform projects were formed with draft pilot action plans in the following areas:

    1.1 Enhancing the independence and integrity within the judicial profession

    1.2 Providing specialized legal training on economic issues

    1.3 Enforcement of judgments

2. Potential Areas of Assistance under Theme VI: Under Theme VI, a number of potential areas of assistance have been suggested, most of which are common to all the participating Arab countries. The following is a general draft action plan for Bahrain:

    2.1 A project consolidating independent institutional procedures of complaints.

    2.2 A project improving proximity in public service delivery to citizens.

2.3 Improved consultation and participation of citizens and civil society by Arab governments by establishing and strengthening relevant national institutions.

2.4 Activation of existing mixed national councils

2.5 A project to support new specialized national councils

2.6 Representatives from Bahrain suggested supporting the creation of a Higher Council for Excellence that will be in charge of rewarding outstanding work and projects with annual prizes.
